

Faculty Performance Criteria

1. These tables summarize faculty performance criteria for our department in each of the 4 medical school mission areas– **Clinical, Education, Research, and Community Service**– as well as performance expectations for a 5th important area of **Departmental Culture** activities. Criteria range from 1- Unsatisfactory to 4- Outstanding.
2. These performance criteria help determine whether you are meeting expectations for how your effort is allocated and compensated (in terms of cFTE and aFTE, as well as compensation and incentives), and to set expectations for the coming year. They also provide guideposts as to whether you are meeting criteria for promotion to the Associate or Full Professor level in your specific faculty track. [\(See The Difference Between Promotion Criteria vs. Compensation Criteria\).](#)
3. **ALL faculty members are expected to meet at least a 2 (Low Satisfactory) in Community Service and a 3 (High Satisfactory) in Departmental Culture.** These activities–which are the foundation of how we serve Minnesota and succeed as a department–justify allocating 0.05 aFTE to every faculty member.
4. The flowchart below shows additional specific performance criteria by faculty track and role.
5. For promotion, please pay particular attention to items highlighted as promotion-relevant. Briefly, for promotion, **faculty members in the Clinician track and in the Academic Tracks are expected to achieve multiple 4s in their chosen domain.** Faculty in the Academic Tracks must also publish one peer-reviewed paper as first or last author per year. Faculty who are Tenure Track/Tenured are expected to meet 3s/4s in all domains.

CLINICAL PERFORMANCE CRITERIA

ALL faculty with cFTE must meet ≥2 in all Core Clinical Duties. If you are on the Clinician Track or the Academic Track/Clinical Focus, you are expected to meet mostly 3s in the Clinical Performance Criteria. Promotion for both tracks requires at least several 4s in the 10 highlighted promotion-relevant criteria. In addition, promotion in the Academic Track/Clinical Focus requires ≥1 scholarly peer-reviewed publication/year as first or senior author.

Criterion	1 – Unsatisfactory	2 – Low Satisfactory	3 – High Satisfactory	4 – Outstanding
Core Clinical Duties				
wRVU Productivity	≤90% of benchmark	100% of benchmark	120% of benchmark	>120% of benchmark
Scheduling Template Utilization	<80% utilization	Averages 80–90% for 46 weeks	Consistently ≥90% for 46 weeks	Consistently ≥90% for 46 weeks
Clinical Availability	Unavailable for assigned duties; frequently cancels clinic or does not meet expected days/hours; refuses patients despite open slots; overly rigid patient population criteria	Maintains reliable schedule; reschedules for cancellations; willing to provide inpatient coverage as required	Makes themselves available during times of clinical need (outpatient and inpatient)	Actively steps forward during times of clinical need (outpatient and inpatient)
Documentation	Consistently late and/or incomplete; requires multiple prompts	Timely and complete with only minimal reminders	Timely and complete with no reminders	Timely and complete with no reminders
Knowledge & Skills	Does not remain current; clinical work does not meet community standards	Knowledge is up-to-date; maintains general skill set	Knowledge is up-to-date and develops a specialized skill set	Known for specialized skill set; sought after for consultation on complex cases; receives referrals regionally or nationally
Patient Interaction & Satisfaction	Disrespectful to patients and/or clinic staff; surveys show consistently low rankings	Interacts professionally with patients and staff; surveys are adequate	Patient satisfaction surveys show consistently high ratings	Patient satisfaction surveys or communications from patients and peers are consistently high
Scholarship, Leadership & Promotion Criteria				
Complex Case Conferences / Clinical Forums	Does not attend Complex Case Conferences, Clinical Forums, or Clinical Council	Attends occasionally	Regularly attends and participates in Case Conferences, Clinical Forums, and Clinical Council	Actively participates and contributes to discussion in Complex Case Conf, Clinical Forums,
Clinical Publications	No publications	Has contributed to a clinical publication as co-author in the past 2 years	Has published a case report or case series in the past year as first or last author	Has published a clinical review article in the past year as f first or last author
Clinical Innovation	Resistant to changes in clinical care processes or technology	Open to and adopts innovations introduced by others	Supports innovations in clinical care, new program models, materials, products, and/or technology	Develops innovations in clinical care models, products, and/or technology
Speaking & Committee Service	Does not participate in speaking or committee activities	Participates in departmental or local committees when asked	Invited to speak locally; serves on local/regional committees related to clinical expertise	Invited to speak regionally or nationally; serves on regional/national committees in professional societies
Quality Improvement	Does not participate in quality improvement activities	Participates in QI activities when asked	Participates in quality improvement initiatives	Initiates/implements quality improvement initiatives and new models of care
Clinical Program Leadership	Does not contribute to clinical program development	Supports clinical program operations as a team member	Takes on a leadership role within a clinical program	Successfully leads a clinical program with demonstrable improvement in key clinical metrics
Awards & Recognition	No recognition for clinical work	Receives informal positive feedback from colleagues	Recognized within the department for clinical contributions	Nominated for and/or receives internal or external award for outstanding work as clinician or clinical team member

EDUCATION PERFORMANCE CRITERIA

ALL faculty with aFTE are expected to participate in the minimal Core Education Duty of recruitment interviews (unless excused by the Education Council). If you are on the Academic Track/Education Focus with dedicated aFTE to carry out the education mission, you are expected to meet ≥3 in all Education Performance Criteria. Promotion in the Academic Track/Education Focus requires at least several 4s in the 10 highlighted promotion-relevant criteria. In addition, promotion in the Academic Track/Education focus requires at least 1 peer-reviewed pub/year as first or last author, or national presentation of a novel education approach.

Criterion	1 – Unsatisfactory	2 – Low Satisfactory	3 – High Satisfactory	4 – Outstanding
Core Education Duties				
Teaching Skills	Limited teaching skills; difficulty interacting with learners	Average teaching skills and knowledge; interacts well with learners	Recognized by peers and learners as a skilled educator	Nominated for or receives award/recognition as a talented educator
Education Activity Participation	Refuses to perform, or does not show up for, education activities (Complex Case Conference, Education Council if in a leadership role, education retreats, clinical supervisor meetings, faculty development opportunities, individual trainee supervision)	Participates intermittently in relevant education activities (Complex Case Conference, Education Council if in a leadership role, education retreats, clinical supervisor meetings, faculty development opportunities); provides individual supervision	Seeks out and participates actively in educational activities (Complex Case Conference, Education Council, if in a leadership role, education retreats, clinical supervisor meetings, faculty development opportunities)	Highly participatory, proactive, and visible in education activities; successfully manages a formal education leadership position
Student Evaluations	Consistently low rankings	Average rankings	Consistently above-average rankings	Consistently high rankings
Education Materials & Preparation	Unprepared; material is out-of-date or poor quality	Consistently prepared; material is up-to-date	Leads an education activity; develops new education activities and materials	Has developed innovative education approaches or technologies that have significantly changed programs locally and/or nationally
Recruitment Interviews	Does not participate in interviews for resident or other trainee recruitment	Participates in recruitment interviews when asked	Regularly and consistently participates in recruitment interviews; provides thoughtful evaluations	Takes a leadership role in recruitment; helps shape interview processes and candidate selection
Scholarship, Leadership & Promotion Criteria				
Speaking Invitations	Does not present on education topics	Presents on education topics within the department	Requested to speak on education topics locally and regionally	Requested to speak on education topics nationally or internationally
Education Publications & Dissemination	No education-related publications or dissemination	Contributes as co-author to an education-related publication or presentation	Disseminates new educational insights, approaches, or materials through posters at meetings, in publications, or online	First or last author on an education-focused publication in a peer-reviewed journal
Committee Service	Does not serve on any education committees	Participates on a departmental education committee when asked	Sits on a departmental, medical school, or university education committee	Serves on national-level committees related to education
Journal Service	No journal review activity	No journal review activity	Performs ad hoc reviews for education journals or meeting presentations	Serves on the editorial board of an education journal or the program committee of a national education meeting
Grant Funding	No education research activity	Supports education research activities in the department	Contributes to an education grant application as co-investigator	Demonstrates successful grant funding for education activities through internal or external peer-reviewed process
Mentorship	Does not engage in education mentorship	Provides informal guidance to learners when approached	Actively mentors learners or early career faculty in education activities	Sought out by learners and early career faculty as an education mentor and advisor

RESEARCH PERFORMANCE CRITERIA

If you are on the Academic Track/Research Focus or on the Tenure Track, with dedicated aFTE to carry out the research mission, you are expected to meet mostly 3s in all Research Performance Criteria (a few 2s are acceptable for early career faculty, while senior faculty and tenured faculty are expected to have more 4s than 3s). Promotion in the Academic Track/Research Focus requires 3s and 4s in the 7 highlighted promotion-relevant criteria. In addition, promotion in the Academic Track/Research focus requires at least 2 peer-reviewed pub/year as first or last author plus at least 2 independent grants, while promotion in the Tenure Track requires 3+ peer-reviewed pubs/year as well as 2 independent federal grants

Criterion	1 – Unsatisfactory	2 – Low Satisfactory	3 – High Satisfactory	4 – Outstanding
Core Research Activities				
Research Projects	Does not have a current well-defined and active research project	Is conducting 1 well-defined research project	Is conducting 2+ well-defined research projects as PI (1 is ok if very early Asst. Prof)	Is PI of a well-funded and thriving lab group with 3+ projects
Research Funding	Does not currently carry any research funding from any sources	Carries intramural research funding	Carries research funding from 2+ sources (at least 1 federal); actively participating in team science projects	Holds 2 or more federal grants; is actively leading team science projects
Grant Submissions	One or fewer federal grant submissions in the prior year	Actively seeking extramural federal and foundation funding through at least 1 federal and one foundation submission per year	Actively seeking extramural federal funding through 2+ submissions/year; may be submitting large foundation grants	Has a consistent record of multiple federal and foundation grant submissions per year,
Grant Writing Group	Does not participate in the Grant Writing Group	Regularly participates in the Grant Writing Group	Active and highly engaged participant in Grant Writing Group	Active and highly engaged participant in Grant Writing Group; often leads discussions in new and helpful directions
First/Last Author Publications	No first/last author publications in the prior year	First/last author on 1 published research paper	First/last author on at least 2 peer-reviewed papers	First or last author on >3 publications with one in a high-impact journal (IF >10); first or last author on >4 publications in medium-impact journals
Co-Author Publications	No co-authored publications	Co-author on 1+ peer-reviewed papers	Co-author on at least 2 peer-reviewed papers in the prior year	Co-author on 3+ peer-reviewed papers
Collaborative Research	No active collaborative work with a funded study	Actively collaborating on 1 funded research project	Actively collaborating on at least 2 funded research projects	Recognized for multiple significant and highly collaborative team science projects
Research Mentorship	No research mentorship activities	At least 1 ongoing research mentorship activities	Actively engaged in at least 2 mentorship activities	Sought after as a research mentor; 3+ different mentorship activities
Regulatory Compliance	Has ongoing research compliance / research conduct problems	Has had minor compliance issues; is rapidly responsive to corrective actions	Maintains good standing with all regulatory requirements; completes training on time	No compliance or research conduct issues; proactively promotes and advises on research integrity and best practices
Visibility and Service				
Conference Presentations	No presentations at national or international conferences	1 presentation or abstract (poster) at national/international conference	Invited to present nationally or internationally; 2 presentations or abstracts at conferences in the prior year	Invited to present internationally (keynote speaker, symposium speaker)
Peer Review / Editorial Service	No peer review or editorial activity	Asked to perform occasional ad hoc reviews for scientific journals	Serves as a reviewer on an editorial board	Serves as a journal editor or appointed to a research advisory board
Faculty Research Forum, NAMI Research Dinner, Brain Health Fair, etc.	Did not attend any Faculty Research Forum or other internal/external dissemination events	Attends the annual Faculty Research Forum event	Attends and actively participates in the annual Faculty Research Forum event and other dissemination events (such as NAMI Research dinner)	Attends all events; actively presents or contributes to Faculty Research Forum and other venues for disseminating research
Research Council / IRB / Committees	Does not participate in any research governance or committee activities	Attends research committee meetings when invited	Participates on an IRB panel	Serves on the Research Council; departmental or graduate research program committees

COMMUNITY SERVICE PERFORMANCE CRITERIA

ALL faculty are expected to meet ≥2 for Core Community Service activities. If you are Tenure-track/Tenured faculty, you are expected to meet mostly 3s or higher. Promotion for Community Service alone is very rare and requires 4s in the promotion-relevant items.

Criterion	1 – Unsatisfactory	2 – Low Satisfactory	3 – High Satisfactory	4 – Outstanding
Core Community Service Activities				
Participation	Resistant or does not follow through when asked to participate in advocacy, public engagement, or other community service activities	Willingly participates in advocacy, public engagement, and other community service activities	Actively seeks out and engages in a range of community service activities	Frequently sought out to represent the dept or field in highly visible advocacy or communications activities
Communication with Community & Public	Communicates in ways that undermine the medical school mission (inconsistent, negative, dismissive)	Makes efforts to be a good communicator with community members and the public; seeks guidance if needed	Seen as effective and creative in service and public communication activities	Has written or communicated at the national level (book, blog, YouTube) for community service, advocacy, or public education
Advanced Service & Promotion Criteria				
Public/Community Engagement	No engagement with community partners or the public	Occasionally engages with community members or partners when opportunities arise	Sought out opportunities to engage with public and/or community partners (invited talks, trainings) in support of mental health	Recognized regionally or nationally as an advocate and public resource in mental health
Community Partnerships & Relationships	No relationships with external community partners or advocacy groups	Maintains basic professional relationships with community partners	Forms active and positive relationships with legislature, advocacy groups, media, and/or community partners	Has played a key role in driving change in legislative, public policy, or public awareness issues related to mental health
Innovation in Advocacy & Engagement	No involvement in advocacy or engagement innovation	Supports existing advocacy or public engagement initiatives	Develops new methods, approaches, and partnerships for advocacy, public engagement, and/or community partnerships	Has developed new methods, studies, or advocacy strategies and published on their effects in peer-reviewed journals

DEPARTMENTAL CULTURE PERFORMANCE CRITERIA

ALL faculty are expected to meet 3s or higher for Department Culture performance criteria. Every faculty member is allocated 0.05 aFTE by the department to engage in these foundational activities. While fulfilling these Performance Criteria are not critical for university promotion, they do play a key role in evaluating your annual performance as a faculty member, which influences decisions such as incentives, pay raises, contract renewals, etc.

Criterion	1 – Unsatisfactory	2 – Low Satisfactory	3 – High Satisfactory	4 – Outstanding
Core Departmental Expectations				
Administrative Responsiveness	Does not perform needed admin tasks in a timely manner; needs multiple prompts with consequences	Performs needed admin tasks but can be late or require multiple prompting	Responds to administrative responsibilities in a timely, independent, positive manner	Highly effective at helping solve administrative problems; serves in an administrative leadership role
Email / Communication Responsiveness	Consistently does not answer emails from admin staff, department administrators, or Dept leadership	Eventually responds to admin emails or messages from leadership, but is often late	Responds to admin emails or messages from leadership in a timely manner	Consistently responsive and proactive with admin tasks and department's needs; able to chart new directions, and find innovative solutions
Faculty Meeting Attendance	Mostly absent from Faculty Meetings	Attends Faculty Meetings intermittently	Attends Faculty Meetings regularly with camera on	Consistently an active participant in Faculty Meetings and other dept meetings (camera on or in person)
Grand Rounds Attendance	Does not attend Grand Rounds	Attends Grand Rounds infrequently	Attends Grand Rounds regularly	Consistently an active participant at Grand Rounds
Ethics & Integrity	Unethical in work with patients, families, colleagues or research	Engages in ethical behavior	Manifests personal integrity and high ethical standards	Embodies & fosters integrity and the highest ethical standards; sought out for input during complex or conflictual issues
Departmental Action Plans	Does not adhere to action plans that are in the best interest of the department	Generally follows departmental action plans with occasional reminders	Consistently adheres to and supports departmental action plans	Champions departmental action plans; helps others understand and follow through
Culture, Growth & Leadership				
Workplace Culture & Collegiality	Negative attitude — fosters complaints or problems instead of solutions	Maintains cordial relationships with colleagues, trainees, patients, and families	Helps support methods to increase well-being, productivity, and efficient processes	Widely recognized as a positive culture leader; actively mentors others and models collaborative problem-solving
Inclusive Excellence & Well-Being (IEWB)	Undermines a culture of Inclusive Excellence	Participates in one IEWB activity per year if prodded	Participates in 1-2 IEWB or related activities per year	Is an active participant or leader in IEWB and/or similar activities
Feedback & Growth	Shows difficulty accepting feedback	Willing to accept feedback	Seeks and accepts feedback; offers respectful feedback when appropriate	Widely recognized for strong listening skills; frequently seeks to receive and offer feedback with respect, openness, and clarity
Crucial Conversations & Problem-Solving	Unwilling to engage in productive Crucial Conversations	Willing to engage in department problem-solving activities if asked	Contributes actively to a positive problem-solving work environment; engages in productive Crucial Conversations when needed	Proactively engages in growth-promoting Crucial Conversations that support learning and healthy change
Office Space Utilization	Does not consistently come to their office in-person for the required 2 days per week	Usually comes to their office in-person 2 days a week	Is actively present in-person, using their office and interacting in-person with colleagues 3 or more days per week	Is a consistent and interactive presence in-person in their office and in a range of department activities
